

Germany

IMMERSION TRIP

1 - 22 June 2008

**2 weeks in Munich
&
1 in Göttingen**

The Munich two weeks stay will include visits of

- laboratories at the University of Munich,
- a number of Max Planck Institutes;
- the Wendelstein observatory
- the Garching Research Reactor
- the Deutsches Museum;
- one or more Biergartens.

The Göttingen programme will include:

- Visits to physics institutes of the Georg August Universität,
- Talks on nano wires, experimental high energy physics, focussed ion beams, x-ray physics and more
- An open-air-concert in the Kaiser-Wilhelm-Park in Göttingen
- A visit to the Sartorius company, a technology provider covering biotechnology and mechatronics.
- A visit to the former students jail of Göttingen University

The immersion trip will be heavily subsidized by the Faculty of Science and the Physics Department, and an affordable contribution will be paid by the students.

Apply now!!!

open to all NUS physics students.
