

# 4<sup>th</sup> Trilateral Conference on Advances in Nanoscience: Energy, Water & Healthcare

5 – 7 December 2013

Nanyang Executive Centre, Nanyang Technological University,  
Singapore

Materials Research Society of Singapore (MRS-S) and School of Materials Science and Engineering, Nanyang Technological University, in association with the Chinese Materials Research Society (C-MRS) and Materials Research Society of India (MRS-I), are organizing a 3-day conference in Singapore on Advances in Nanoscience. This conference is the follow-up of the first three conferences held in Singapore, China and India, respectively.

Scientists from Singapore, India and China will get together to interact and foster collaboration in the energy, water and healthcare domains. About 15 invited lectures from each of the three countries and 100 posters from Singapore will be presented. Selected posters will also be awarded “Best Poster Award” at the end of the conference.

*All are Welcome (Free Registration)*
